Product Highlights

Blackline S

Philips TV picture tube with invar mask gives less deformation and therefore can provide 80% more contrast than conventional picture tubes for brilliant colours and minimal reflections, even when viewing in daylight

Contrast Plus

A special electronic circuit has been incorporated into this television to enhance the darker portions of the picture for added realism and improved picture quality

Stereo

Two channel sound signal able to deliver different sound from left and right channels

Incredible Surround

Incredible surround widens the stereo sound signal to give the impression that sound is coming from all around you.

RMS

The standard professional measure of sound output power. All our Tv's are measured in RMS with 10% Distortion. There are other terms than RMS which often show higher numbers but are not comparable.

Plug & Play

Having connected the tv, it automatically searches for all channels and installs them.
